Applications

- Leaf & Debris Removal
- Litter Removal

Quiet operation with one of the lowest noise levels in the industry.

Gigantic 33-inch intake width and a 10-bushel capacity bag makes quick work of big jobs.

The optional hose kit allows the vacuum to access those hard-to-reach places and navigate in tight quarters.

The Undisputed King of Quiet Vacuums.

The VQ Quiet Vac® PRO Series vacuums feature a gigantic 33-inch intake width and a 10-bushel capacity bag to make quick work of big jobs. Just like the SV Quiet Vac® PRO Series vacuums, the VQ Quiet Vac® PRO Series vacuums lead the industry in low noise levels. Operation is made easy with five forward self-propelled speeds plus reverse. VQ Quiet Vac® PRO Series vacuums are perfect for all hard-surface requirements, picking up leaves, debris and litter—from glass bottles to cans to cigarette butts—with ease. An available “on-board” hose kit option provides the ultimate in versatility.
