Applications

- Lawn Thatch Removal following Power Raking
- Leaf & Debris Removal
- Litter Removal

Amazing suction power and a unique bagging system make debris collection a fast, efficient process.

Easily converts from hard-surface use to turf applications with quick-adapt interchangeable wheels.

Dust is diverted from the operator's face with airflow engineering and by using the in-bag felt dust filter.

Quiet Vac® Provides Adaptable, One-Step Convenience

With its revolutionary engineering, the Quiet Vac® has enough power to handle multi-surface applications safely and with ease while operating at the lowest noise levels in the industry. The Quiet Vac features a quick-adapt interchangeable wheel system: heavy-duty caster wheels for hard surfaces, large turf tires for turf applications. Debris is collected in the large outside bag, which can then be dumped through an over-size front opening, or the traditional zippered rear opening. For complete collected debris containment, disposable bag liners are available to simply remove when full, tie shut, and dispose in an efficient, one-step process.

Specifications

Engines	5.5 hp Honda OHV GX	Wheels	12"x2.5" (305 mm x 64 mm)
Weight	153 lbs. (69.4 kg)	Nozzle Material	High-density polyethylene (53 mm thick)
Housing	12 ga. (2.6 mm) steel wrapper	Cleaning Rate	34,302 ft.sq./hr. @ 2 mph (3188 m sq./hr. @ 4.8 kph)
Intake Width	27" (685 mm) Effective cleaning width: 30"	Bags (standard)	Outside bag (washable knit) Felt dust filter Liners: litter and lawn
Impeller	6-bladed, 1/4" (6.4 mm) steel	Bag Capacity	6 bu. (200 L), with polyethylene bottom
Handle	Ergonomic, with padded grip		

Accessories

- On-board hose kit (Part #890041)
- Litter liners (Part #890006)
- Leaf liners (Part #890009)

Standard

- Felt filter (Part #890435)
- Front casters (Part #890447)
- Nozzle wear guard kit (Part #890413)

Samples of Each Supplied with Unit

- Litter liners (Part #890006)
- Leaf liners (Part #890009)
